Cover Letter

Dear Hiring Manager,

I am writing to apply for the UI/UX Designer/Product Design position at your esteemed organization. With a BS in Software Engineering and over 5 years of hands-on experience in designing intuitive digital products, I am confident in my ability to contribute significantly to your development team.

Currently working as a UI/UX Designer at Ajial Muwaffaq Industries Co. in Riyadh (since February 2025), I have designed and delivered complete digital solutions including the Ajial Water Website & Mobile Application, SalesHawk Sales Management App, and enhanced the ERP-NEXT Web Application. My expertise spans User Experience Design, UX Research, Wireframing, Prototyping, Visual Design, SaaS Platforms, and Mobile Application Design (iOS & Android).

I specialize in transforming complex requirements into user-friendly, visually compelling, and scalable interfaces that drive user adoption and business growth.

My strong technical background combined with proficiency in Figma, Adobe XD, After Effects, and collaboration with development teams enables me to bridge the gap between design and development effectively.

I am eager to bring my skills and passion for creating exceptional digital experiences to a forward-thinking software development company in the Kingdom and contribute to innovative projects aligned with Saudi Vision 2030.

I would welcome the opportunity to discuss how my experience and design approach can add value to your team. I am available for an interview at your earliest convenience and can join immediately.

Thank you for your time and consideration.

Best regards,

Muhammad Junaid Ashraf
UI/UX Designer
